

Multiple Hooping

Tuesday, February 27, 2018 Class: 10am – 1pm Snack Break: 11:30am – 11:45am

Fee: \$30

Minimum of 3 students

Instructor will demonstrate how to increase the size of the above design to fit a jacket back (or to fit a large quilt block, etc.). The increased size will require at least two hoopings – depending on the size of the student's largest hoop.

When student chooses to take this class and pays SewVac, he/she should register with:

1. Embroidery Machine make and machine format (pes, jef, etc.)
2. Largest hoop owned or that will be used
3. Email address to receive the design file and detailed instructions
4. Contact phone number

A copy of the design and detailed instructions will be emailed to student's email address as soon as class registration is complete. **FYI:** If other wording is desired, change can be made during class.

Prior to class, student will be required to embroider Part 1 of the design onto their choice of medium (background fabric, shirt back, etc.). Parts 2 and 3 will be embroidered in class – student will be shown how and will setup for embroidering those parts.

Supplies:

- Embroidery machine & attachments
- Stabilizer – 2 pieces to fit your hoop
- Embroidery thread
- Marking tools
- Scissors, etc.
